

# Specialty Keeper Systems

---

## The Vintner

A three-bottle oak, Mahogany, or Black Finish (not shown) cabinet with lacquer finish, brass bottle holder, 3 stopper-faucets, regulator, disposable canister (dispense up to twenty four bottles of wine), quick-connects (allow for refrigeration of white wines), and tubing. The Vintner preserves wine for weeks. Nitrogen canisters or Argon cylinders are concealed behind the stylish wooden rack and can be upgraded to a remote refillable Nitrogen cylinder for commercial use. This system is great for restaurant and home use keeping the wine fresh and saves money. Preserve your favorite wines! Enjoy wines by the glass, while a pressurized blanket of Nitrogen protects your wines from oxidation.

**Optional Upgrade Features:** You can upgrade the wood stain from the large selection of color stain choices. You can also choose to add glass Inserts on the top for easier viewing.

## The Petit Noir

The Noir is a striking corporate or promotional gift when branded with your logo. Texture-painted 8" diameter cylinders display your wine while concealing the nitrogen canister. The Noir was designed as a large format base, but can be reconfigured to accommodate three .75 liter bottles.

## The Showcase

Designed for easy branding with your logo. Available in oak, mahogany or black finish. Portable and lightweight, uses non refillable Argon or Nitrogen canisters.

### The Executive

Available in oak or black finish. It is portable and lightweight. Preserves wine for weeks with non-refillable Argon or Nitrogen canisters.
