Features

The Fully Ducted Platinum Split is WhisperKOOL's newest model to the split line-up. Ducting a Split creates a virtually silent cellar environment and allows for maximum installation options. The unit is equipped with our Platinum Series controller utilizing Advanced System Protection Technology. This features a series of strategically placed monitoring probes, which insure efficient performance and long cooling unit life. The controller is easy to operate and has features such as adjustable humidity control, energy saving modes, quick chill mode and anti-frost function. To achieve virtually silent in cellar the evaporator portion may be installed up to 25 duct feet from the cellar.
